Certified for Shipments via Air⁽¹⁾ and Surface Modes

Use of packaging methods or package components other than those documented in this report may invalidate this certification. The shipper is required to insure this packaging design is used in accordance with all requirements of the national & international regulations governing the intended mode(s) of transport (49CFR, ICAO/IATA, IMO/IMDG, et.al.).

⁽¹⁾ Reference: 49CFR (§172.101, §173.24(i) & §173.27(f)) & ICAO/IATA may limit the quantities allowed in inner/outer packagings and/or prohibit shipments via passenger aircraft.

Mr. Frank Reyes (Certifying Official)

President
